D W Fox
Sir

Yours of 17th, in response to mine of 15th, received.

The copy of the Illustrated History of the Mint has not yet come, but I will be glad to have it. Please accept thanks also for address of coin dealer.

I did not expect to make sales to the Mint, supposing naturally that you were fully supplied, but thought it best to send to head quarters for information.

Are you positive that no dollars were coined in 1811?

Because, for several years I had a perfect specimen of that date, which according to your statement, must have been spurious. I parted with it finally in ordinary expenditure, and rather regretted it, but if it were of no value, it makes no difference, except that I unknowingly defrauded someone by that much.

Respectfully Yours
